31016 Cordignano, Treviso - Italia

ITLAS
IL LEGNO. LA TUA CASA.

Assi del Cansiglio is a flooring made of Italian Beech, cut from the Cansiglio Forest, the ancient "bosco da reme" (wood for oars) of the Serenissima Republic of Venice. Unique and inimitable for its quality, beauty and

preciousness of materials, Assi del Cansiglio has become a symbol of Italian excellence, of Veneto excellence, of 100% Made in Italy, of sourced flooring (or better, as we prefer to say, of "25 km away" sourced flooring).

Assi del Cansiglio is a floor made saving CO2 - healthy, steady, patented. A forest must be cared for. This is the only way to love it truly. Today, when you buy Assi del Cansiglio you actually take part in the rebirth of the woodland.
